ELECTION AND AMENDMENT

Dear Sir:

In response to the Office Action of January 22, 2003, received in the above-captioned patent application, the Applicant hereby elects claims 1-11 with traverse.

REMARKS

In the aforesaid Office Action, the Examiner restricted the claims to one of the inventions drawn to a method (claims 1-11) and apparatus (claims 12-20).

The Examiner states that the inventions in these claims are distinct from each other because the "apparatus as claimed could be used as a chemical or biochemical reactor in a chemical or biochemical reaction process."

The Applicant respectfully disagrees with the conclusion drawn by the Examiner and hereby makes the election with traverse. The method and apparatus
